How To Play Star Wars Bingo

1. Print out the required number of bingo cards (one per player) and one set of calling cards.
2. out a bingo card for each player along with one set of calling cards. Cut out the calling cards using scissors and place the cards into a bowl or a basket.
3. Pull one card at a time from the bowl/basket and describe the image to the players before showing them the card.
4. Cover the corresponding image on the bingo card with a marker (fjelly beans, buttons, and Cheerios all make great markers!).
5. To win a round of Classic Bingo: a player must cover 5 spaces in a row either horizontally, vertically, or diagonally, and shout out "**BINGO**!" before any of the other players.
6. To win a round of Blackout Bingo: a player must cover all 25 spaces on their game board and shout out "**BINGO**!" before any of the other players.
